

This is the second bi-annual newsletter of the STAR-FLOOD project. Read more about the latest knowledge on flood risk management in Europe, country and case studies, the STAR-FLOOD video, workshops, conferences and columns. Please feel free to forward this newsletter to interested colleagues.

## Latest knowledge on Flood Risk Management in Europe

The STAR-FLOOD consortium is proud to present the latest knowledge on Flood Risk Management in Europe. The state-of-the-art knowledge is documented in four handy reports:

1. [The flood problem and interventions](#)
2. [An exploration of Governance Challenges](#)
3. [European flood regulation](#)
4. [Similarities and differences between the STAR-FLOOD consortium countries](#)

## Kick-off country and case studies

The STAR-FLOOD consortium meeting in October marked an important milestone in the STAR-FLOOD project. The finalisation of Work package 2 "Assessment Framework" paved the way for the start of Work package 3 "Country and case study analysis". After a thorough, theoretical set up of the assessment framework, which guarantees comparability across countries and case studies, it is now time for empirical research!

## STAR-FLOOD videos online

STAR-FLOOD has recently opened a YouTube channel to share information about the project. In a short series of videos, participants from various universities and countries give their thoughts on flood risk management and on their role in the STAR-FLOOD project.

## Workshop on implementation of Floods Directive

Over fifty participants from over 20 EU member states convened on October 16 to discuss the implementation of the EU Floods Directive in an interactive workshop. They exchanged experiences on the formulation of objectives and the selection and prioritization of measures, which are required for the formulation of Flood Risk Management Plans that all EU Member States should issue no later than December 22<sup>nd</sup> 2015.
